

LED LIGHT F-28

Pure power is the name of the game. This LED surface-mount light with its 28 MidPower LEDs is splash-water protected in accordance with IP67, making it the perfect light for commercial vehicles. It is popular for use in refrigerated vehicles, transporters and emergency vehicles. Its low fitting depth of only 13 mm means that it is never in the way, yet sheds the right light. And great light means great safety.
